Dear Sir:

Your letter of the 18th inst. was duly received. The only reference to a Seal for the Treasury, that I can find is in the proceedings of the Congress of the Confederation, which is as follows:

In Congress, September 26, 1778.

"Resolved, that a Committee of three be appointed to prepare a Seal of the Treasury and for the Navy. The members Chosen: Mr. Witherspoon, Mr. G. Morris & Mr. Robt. Lee."

I have not been able to find the record of any subsequent legislation on the subject. It is probable that the Committee caused a seal to be prepared for the Treasury, and that it went into use without any further congressional action. If such was the fact it is not unlikely that the organization of the Treasury Department under the Constitution, the use of the seal was continued. A precedent for this course is found in the Act of Congress, Approved Sept. 15, 1789, declaring "the Great Seal" used by the United States in Congress Assembled, to be the Seal of the United States.

I would be glad to be informed of the result of your investigations of this interesting subject.

Treasury Department,

Sir:

I have received your letter of yesterday.

The Mr. Eckfeldt you refer to was the father of Issac R. Eckfeldt Esq., Assayer of the Mint. He was connected with the Mint from its organization, first as a machinists, then Assistant Coiner, subsequently Chief Coiner. He resigned this latter position in the year 1838. He was a very ingenious, enterprising and skillful machinists. I learn from his son, that the father, Adam Eckfeldt, had a contract with the Government in 1797 for the manufacture of a number of Seal Presses for stamps under the Stamp Act. The papers relating to this contract are in the possession of Mr. I. R. Eckfeldt, who will make an early examination of them to ascertain if they contain any reference to seals. When Mr. Eckfeldt reports I will write to you again on the subject.

Mint of the United States:

Philada. July 23, 1855.

The Director of the Mint gives notice, in pursuance of an authorization from the Secretary of the Treasury, and in consequence of the present accumulation of silver coin at the Mint, that from and after the first day of August next, and until further notice, the purchases of Silver for coinage will be paid for in Silver coins only, and not in gold.

The Silver offered for purchase will be weighed, melted and assayed, as usual, and the standard weight determined therefrom, in ounces troy, to the hundredth part of the ounce; and will be paid for (as at present) at the rate of one dollar twenty-two and a-half cents per standard ounce. The receipt given at the first weighing must be presented by the seller or his order, and usually payment may be expected on the day following the date of receipt, or the second day following.

For the information of bullion dealers, country banks, &c., it may be stated, that according to the above rate of purchase, the yield of various classes of coin or bullion will be about as follows:

Five-franc pieces,	.	.	.	.	.	99 cents each.
Mexican and South American dollars,	.	.	.	.	.	106 $\frac{1}{4}$ do
Old Spanish dollars,	.	.	.	.	.	105 do
Revolutionary or "hammered" dollars, (often mistaken for the true Spanish dollar,)	}	.	.	.	.	101 do
Half-dollars of the U. S. coined before 1837,	.	.	.	.	.	52 $\frac{1}{4}$ do
The same since 1837 to the last change of standard in 1853,	.	.	.	.	.	52 $\frac{1}{2}$ do

Quarter-dollars are proportionally less productive of premium, while dimes and half-dimes, coined before 1837, have lost rather more by wear, on an average, than the premium would make up; those coined since 1837, to 1853, will average a premium of $3\frac{1}{2}$ per cent. on their nominal value.

German, Swedish, Danish and Norwegian crowns,	.	.	.	.	.	111 cents each.
Old French crowns,	.	.	.	.	.	114 do
German florins,	.	.	.	.	.	41 $\frac{1}{2}$ do
Prussian and Hanoverian thalers	.	.	.	.	.	72 do

Fine Silver 136 cents per ounce.

American plate, best manufacture, 120 to 122 cents per ounce.

Genuine British plate, 125 cents per ounce.

These regulations will take effect at the branch of the mint at New Orleans, when the purchase of Silver is resumed at that Institution, of which notice will be given by the Superintendent.

At San Francisco the purchases may be paid for in *Gold* or *Silver*, at the option of the Superintendent thereat, until a sufficient supply of Silver Bullion is received to meet the public demand for Silver Coin at that Institution.

Dear Sir,

Yours of 21st Inst. is
rec'd advising in regard to the process for separating
the Copper from the Silver as we obtain it at
our Lake Superior Mines.

I was not aware that the process involved the
loss of the Copper by the use of acids, & that
being the case of course we could not expect to
be paid for the Copper.

Please comply with instructions in mine of 17th
Inst in regard to converting the Silver into Coin &
forward it as advised.

Dear Sir

Herewith I hand you Express Receipt for Box 105th Lake Superior Native Silver with some Copper adhering - The two metals are ~~never~~^{not} amalgamated but are simply united & welded. - We have not heretofore been able to obtain any allowance for the associated Copper; but as the price of this commodity a metal is now so much greater than usual, I respectfully submit whether it might not be more just to allow for what Copper is obtained, which it would encourage us very much in endeavoring to secure the smaller particles of Silver embedded in the Copper.

I have transmitted the assay of this Silver in Coin to my Agents in New York Bacon & Hyde 37 Fulton Street & send me the usual certificate of assay. -

Your letter of the 14th inst, has been recd.

The value of the Brazilian Milreis, as estimated in American coin, is as follows.

In gold (the gold dollar being the standard) 54.25cts
or fifty four and one fourth cents.

In Silver (\$1.22½ per standard oz) 51.25 cents (fifty one and one fourth cents.)

The gold valuation, being now fixed and certain, better expresses the equivalent value of foreign coins, in our currency, and is therefore preferred. The gold dollar should be, by law, adopted as the unit value of our money.

For Silver there is no fixed legal valuation, the law providing for shifting the price according to the condition of supply and demand. The

present price of standard silver is 122½¢
per oz, at which rate the value of the Mules in
silver is calculated,

Respectfully yours

Wm. Wallace Esq
Director of the U. S. Mint

Your favor of yesterday is recd.
Cases, U. S. Mint N. 5 & 6 having
been delivered to the Railroad
Co. in perfect good order, it
is uncomprehensible to us, how
cases of such enormous strength
as our friends use for this pur-
pose, should have been totally
broken to pieces on the way
from our store in Phil^a, after
having withstood without any
trace of destruction the land
and water transportation
from Burlington to this Port.

You will grant us that upon
receipt of two broken Cases
the Nos of which were reported
to you as N. 1 & 2, whilst our
bill called for N. 5 & 6, we
were entitled to a timely
advice of such irregularities
before the old cases, (the only
means of identification between
what we shipped & what was
delivered to you by the R. R. Co.)
had been burned up. As what
remains

ers stated, you have deprived us
of the only means of obtaining
records from the R. R. Co. for
presenting to you the evidence bases
and of proving to you conclusively
to that our friends have sent
you 99% Nickel & not 96.8%.
We feel morally certain that the
same irregularity on the part of the
R. R. Co. or any of their officials.
You have received 2 Cases of Nickel
destined for another quarter &
that Cases N526 have never
reached you. However this may
be, we are ready to compromise
the matter, by allowing one half
the difference your claim, which
we trust will prove satisfactory
to you. On future occasions you
will oblige ^{us} by notifying us ⁱⁿ
due time of any irregularities in
mark & numbers, and for the better
identification of the contents
of any case, we may send you,
we shall open & retain specimens
out of every case going forward.
This will provide our doubts
as to the identity of what we
ship & you receive.

Secretary of the Treasury,

Sir,

Your letter of the 5th inst. requesting a statement of the coinage of the Mints and Branches, to 30th June 1843, has been received. The statement heretofore published in the Financial Report, contains numerous errors in relation to the coinage from 1839 to 1843 inclusive. These errors should be corrected. It is now proposed to correct the tabular statements (of the coinage) accompanying my Annual Report. It will be impossible to make the necessary examination in time to prepare a corrected table this week. I must therefore ask your indulgence for a few days in the preparation and transcription of the statement in question.

It is proper to remark that, the errors in the statement were caused by the imperfect returns furnished from the three Branch Mints, in the Southern States, for the first three or four years after they were organized. These errors were subsequently

connected in the statements accompanying
the Mill reports, and hence the discrepancy
between the same, and the statements now
under examination.

With great Respect,
Yours &c. &c. &c.

J. W. Pollock
Director.

Sir,

I suffer great inconvenience and loss for the want of one cent coins, to make change in the office.

I have been informed by the authorities at the U.S. Mint at Philadelphia that the coins cannot be obtained there in regular course of business without a considerable delay.

As I need a supply immediately I beg leave to suggest that you would confer a great favor on me & other collectors by procuring an order from the proper authority allowing the orders of collectors to be filled immediately on application for a reasonable amount say \$50.00 or \$100.00

App. Sec. of Treasury
Sir

Your communication of the
17th inst, with enclosures, has been rec^d.

The rule of the Month is to furnish Treasurers
of the U. S. Pay Masters, Collectors, P. Masters &c
cents in sum of \$50 as promptly as prac-
ticable, without the delay incident to private
order. The demand from private & official
sources is very great, - some delay is una-
voidable, but officials, are first served.

U.S. MINT GENERAL CORRESPONDENCE 1863 / OCTOBER - NOVEMBER

Treasury Department,

Register's Office,

August, 1863.

Sir:

I have respectfully to request, that, as soon as practicable after the 30th day of September next, you will transmit to this office a list of the officers and agents employed in your office on that day, stating where each officer or agent was employed; the State or country in which he was born; the State or Territory from which appointed; and the amount of compensation allowed to each. The compensation must include the full amount received by each officer or agent per annum, whether from salary, fees, or commissions; and also the amount and to whom paid for printing.

This information is required for the Biennial Register, in compliance with resolutions of Congress of April 27, 1816, and July 14, 1832, and act of March 3, 1851. As the printing must be completed before the 1st of November, it is desirable that the information requested should be forwarded as early in October as it can be compiled.

Very respectfully,

Your obedient servant,

L. E. CHITTENDEN,

No modification of Regulations relative to
taking of assay slips. Resolved
Oct 30. 1868.

It has been judged advisable to reconsider one
of the Regulations prescribed for conducting the
business of the Branch & Unit at Denver, relative
to the manner of taking assay samples, and
of reserving sufficient gold from the deposit
to pay the Government charges. It is certainly
desirable not to cut off so much as would
give the bar a deformed and mutilated
appearance; and yet, in case of large bars,
this would be necessary in order to secure
a sufficient amount.

The Assayer & Refiner therefore, with the
approval of the Superintendent, and of
the Assayer, will have an option as to
the best mode of attaining all the desired
results. At the time of receiving from the
Treasurer any given deposit, for melting, he
must also be informed of the amount, in
weight, that will apparently be required
for the assay slip and for the deduction or
charge. He may then reserve this amount
from the grains or amalgam (or whatever other
form,) before melting; or he may dip out a
sufficient amount while the metal is fluid;
or after the metal is cast, and the flux grains
collected, he may cut off a sufficient amount,
and then return the bulk of the deposit, with
the flux grains, into the melting pot, to be
remelted; and thus avoid the embarrassment

of their being flux grains to deliver on account for, they being always off over and uncertain fineness.

In the settlement with the depositor, the excess which may be due to him, shall be paid in gold coin to the nearest dollar, and the remainder in small currency notes; or if there happens to be a deficiency (not amounting to one dollar) the depositor shall pay it in similar notes. But care must be taken to take sufficient from the deposit to pay the charges.

The Secretary of the Treasury will cause the Branch Mint to be supplied with a sufficient Bullion Fund in gold dollars and postal currency to make the payments herein indicated.

Dear Sir.

I have received your letter of the
2nd inst.

Our experience of Canadian Gold, and
the precise localities, is very limited. We have
had some, stated to be found about 60 miles south
of Lucas, and 14 miles from Maine line, which
was 880 thousandths fine, and therefore worth,
in good coin, about eighteen dollars an ounce
less, allowing something for loss in melting. Other
Canadian gold, locality not stated, was as high
as 946 thousandths, which would yield
near 19½ dollars, making a similar estimate.

I have to acknowledge the receipt of your letter of the 5th inst. together with the rejected coins therein specified, and I have this day transmitted by Express Fourteen Dollars (\$14.) the amount of the deficiency.

The original papers or tags attached to the bags, as far as you have returned them have enabled me to trace the reception of these coins to a new-Teller, the best man I could obtain, but who it seems is not infallible.

My Tellers think there may be some mistake in relation to the ten gold dollars returned with holes in them, as they are invariably rejected here,
and

and they are somewhat confirmed in the belief
from the fact that the paper surrounding them is
marked "Thomas H. Rice, 506 Minor Street, Philadelphia".
If this was not the original paper attached to the bag,

me by stating if these dollars were all contained

delivered to said Dixon Co only on surrender of this receipt therefor.

If it shall at any time appear that the real value thereof exceeds said alleged value, then said depositor shall pay to said Express Company Ten Dollars for every one hundred dollars of said excess of value, but without any liability by said Express Company for such excess.

It is part of the consideration of this contract and is agreed, that said Express Company ARE FORWARDERS ONLY, and are not to be liable or responsible for any loss or damage while being conveyed by the CARRIERS or AGENTS to whom said property may be by said Express Company entrusted, or arising from the dangers of Ocean or River Navigation, Railroads, Steam, Fire in Stores, Depots, or in Transit, or from any cause whatever, unless, in every case the same be proved to have occurred from the fraud or gross negligence of said Express Company or their servants. And if the same be entrusted or delivered to any other Express Company or Agent, (which the said Adams Express Company are hereby authorised to do,) such company or person so selected shall be regarded exclusively as the agent of the depositor, and as such alone liable, and the Adams Express Company shall not be in any event responsible for the negligence or non-performance of any such company or person, nor in any event shall said Express Company be liable for any loss or damage, unless the claim therefor shall be presented to them in writing at their said office, within thirty days after the time when said property has or ought to have been delivered.

Dear Sir,

I have to acknowledge the
receipt of your letter of the 18th inst.

The value of your gold per ounce
depends upon its fineness - We have had native gold
from two localities in Canada.

One of these was stated to be
about 60 miles south of Quebec and 14 miles from
the line of Maine. The gold was in large grains, and
the fineness 880 to 885 thousandths; the remainder (say
15 thousandths) being silver. This gold, after losing
about 2½ to 3 per cent of dirt in melting, would be
worth in the bar, as follows:

For the gold, (per oz)	\$18.20
For the silver clean of cost of parting	<u>10</u>
Value, in bar, per ounce,	\$18.30
If converted into coin, a deduction of ½ per cent (In gold coin)	<u>09</u> 18.21

Oct. 26. 1863

Hon J. E. Sumner,
 Treasurer of the U. S. State,
 Sir.

In reply to your letter of the 24th inst. I have to state that the Mint has no ability, nor indeed any legal right, to make interchanges of gold and silver. Each kind of bullion is paid for in its own kind of coin. The price which the Mint pays, in silver coins, - smaller than the dollar, - for silver, is 122½ cents per ounce of standard fineness. As to the whole silver dollar, which is coined at the old rate of 412½ grains 16th denier, and occupies an anomalous position, when we exchange it to gratify the curious, we charge 108 cents; because, as compared with a dollar in coins of less denomination, two half dollars for instance, it is worth 107 $\frac{27}{100}$ cts to

the question, only applicable
 to say to the Com.
 the Com.
 the Com.

that amount from the S. Bullion fund,
without interfering with our parting operations.

I am informed by the Assistant Treasurers,
Mr. M. Dwyer, that he has about \$7000- in
silver coin on hand which he could conver-
sionally exchange in exchange for a corresponding
amount in gold coin.

With great respect,

Sir:

By your direction, contained in a communication to me - bearing date July 11th 1863. I proceeded on the 23^d of same month upon the duties of "inquiring into the proper location, price, and other incidents of a site for a Mint in Carson City in the Territory of Nevada &c." -

I travelled overland and reached Carson City on the 3^d day of September. - This place is very handsomely located in Eagle Valley a small valley that opens into the Carson - about midway between Carson river and the eastern base of the Sierra Nevada mountains. -

It is the County seat of Ormsby County, and the capital of the Territory and was fair to become the Capitol of the future State. -

In point of size, it is the second town in the Territory, and numbers about two thousand five hundred inhabitants. -

From

From its healthy and beautiful location, and fine agricultural surroundings, it is by far the most desirable place for a residence that I saw in the Territory.

The place is also well located as regards the mineral interests of that country. Whilst it is not in the immediate vicinity of any of the mining districts, it is yet very centrally located for all that are yet opened up. — The town plat is very smooth and level with ^a gentle inclination to the east, falling about three feet to the hundred. —

Small streams of water from the Sierra Nevada mountains, flow through the town along many of the streets, much after the style of the Salt Lake City.

After a careful and diligent inquiry and examination over the town plot and surroundings I selected as the most desirable of all the sites offered to me Block number sixty five as shown upon the plot of Carson City herewith accompanying.

The site is upon a gentle swell of ground, and although at present it is not in the very heart of the town it is nevertheless destined to be, in the probable future growth of the place; and it is now surrounded by business and dwelling houses on the Principal Thoroughfare, but a few steps from the Court House. It covers one entire Block, being one hundred and seventy feet square.

This block of ground, you will perceive, is very much larger than your instructions required, but you will perhaps not object to it on that account, when I tell you it was a free donation to the Government for Mint purposes by a few of the liberal Citizens of

of Carson City. Its market value there is about \$2000.⁰⁰. There is no established grade in the town other than the natural one, this as before stated is three feet to the hundred. From this it may be inferred that a sewer two hundred feet long would drain even a basement story or cellar to the sink Building.

Abundance of pure water is obtained by wells from eight to twelve feet deep, and the surface water that flows through town could be brought in pipes at a trifling expense on to the roof of even a four story building. There is no lack of water there. —

There is an abundance of building materials in that vicinity. Brick, stone, and pine lumber. There is no hard wood in that country. The Brick is not of a good quality at Carson City and hence I saw but few

brick houses in the place, but there is an abundance of fine building stone near the place, and within eight miles there is a marble quarry, said to be of a good quality, of ready access and easily worked.

Prices — Brick in the wall per sq ft 20.00

Stone " " " " Perch 20.00

Lumber per ft " 30.00

" " " Clear " 50.00

Hardware nails &c per lb 10.00

Common labor per day 3.50

Mechanics " " " 5 to 7.00

Boarding per week 8 to 10.00

Freight from San Francisco, owing to the season per cwt 3⁵/₈ to 6.00

These rates are upon a specie basis. Paper money finds little or no circulation among the people of that territory.

The foregoing comprises, I believe, all that my instructions required me to report upon, but permit to volunteer a remark or two before I conclude this brief report. I found the people of that Territory a very wide awake, enterprising and

patriotic class of Citizens.

There is great wealth among them for so new a community.

Every thing to the eye of the beholder in the line of ~~material~~ development bears the impress of abundance of Capital to work it. In a word California has spread her rich mantle over that Territory for its development and right richly is it paying for this investment and Confidence. From a very careful inquiry among the best informed sources in the Territory and in California I should estimate the yield of silver of Nevada Territory to be monthly but little short of two millions dollars.

About one sixteenth in value of their
bullion is gold.

Herewith I transmit to You title
deeds with an abstract, to the Mint Site
with the general remark that the fee simple
of this land is in the government of the
United States in precisely like manner as
in the case of the Denver Br. Mint site,
and that the same Congressional action
will be required in this case to settle the
title permanently, that was taken in that.

I have the honor to be

of your favor of the 27th Inst. addressed to our
late firm, note contents -

The notice given you of an advance in
the price of Nickel, was expressed in as explicit
terms, as our notice of an advance to any
other of our Customers, and yet, all
except yourself, understood it as intended.

If we had made any exception in favor
of the Mint then indeed you might have
understood that we made two prices, and
proposed to sell the Mint lower than our
other Customers, whose orders were precisely in
the same position, but instead having made
our terms general, we cannot see how
you could so misunderstand us -

However, we are not disposed to dispute
the point, but are perfectly willing to leave
it with yourself, either to pay us at the
rate of \$126 per lb. net gold, or \$132, as
you may prefer to think proper -

We would however be glad to know
for our future guidance whether you are
willing to pay \$132 per lb. net gold, or its
equivalent, or if not, we have other

Customers, who are perfectly willing to
pay that price for all we can furnish

Gentlemen:

January 27. 4.

I have to acknowledge the receipt
of your letter of 25th inst.

The propriety of allowing ^{duties} \$1.32 for the
two last cases of Nickel received from you depends upon
the construction which may fairly be placed upon your letter
of the 30th ult. and particularly of the paragraph relating to
the price. In the first paragraph of the letter referred to you
state your expectation of being able to furnish 4 cases within
30 days from that time. In the 2nd. you remark "The price
has again been advanced, and we are now selling at \$1.32
per lb. net gross, duty unpaid", and conclude your letter by stating
your hope to receive in the course of a week "two cases designed
for the Mint." The only question to be considered and decided
is, can the 2nd paragraph of your letter be fairly construed as
a notice of advance in price on Nickel imported for the use
of the Mint. We think not, and hence our unwillingness
to allow the advance. Had you informed the Mint
explicitly, we should have known what to do.

Under all the circumstances, I must ask you to reconsider
the subject, and especially, whether the paragraph in your
letter of 31st. ult^o. was a sufficient notice of your intention
to advance the price of Nickel for the Mint.

New York January 25th 1864

We are in receipt of your favor of the 22nd Inst. In which you propose to pay us \$1.26 gold for the Nicks shipped you instead of \$1.32 full as charged in our Invoice. A brief review of the case will, we think, reconcile you to pay us the \$1.32 gold as charged in our Invoice -

When, on the 31st Ult. we advised you that the price of Nickel had been advanced to \$1.32, not gold, duty unpaid, we did so, in order to give you an opportunity to object to the price, if you felt so disposed, and when under date of the 15th Inst. we proposed to sell you 2 Cases, on terms "as advised in ours of the 31st Ult." we again gave you the option to decline if the price did not suit. but no objection was made and instead, you obtained for us the necessary authority to pass the same free of duty, and the Nickel was accordingly forwarded to your address, with Invoice as advised. - In receipt of Invoice, we presume the Nickel you then object to the price. -

We will please further observe that these two Cases were marked "W" not "U.S. Mint"; which shows they were designed for our other Customers, and not for the Mint; but we, supposing from your letter, that you wanted Nickel, diverted them from other channels, & sent them to you, being desirous to oblige you -

We have only now on our books, would immediately, for more than 30 Cases Nickel at same price as we Invoice the 2 Cases to you. Under these circumstances we do not consider we would be doing justice either to every fashion or to our other Customers to sell at any less price than \$1.32 - as we think you cannot fail to perceive -

We presume, if other parties had not entered into a contract with you, they also, would be compelled to advance their prices. - Very respectfully
Kimbart M. Cox

Gentlemen,

By your invoice of cases
of Nickel No. 91 & 92. I notice that you have advanced
the price from 126 to \$1.32 per lb. (in gold).

In your letter of the 31st ult.
you state you were selling nickel at \$1.32, but I did
not suppose the Mint was included. If you cannot
furnish the article at rate last paid, we shall have
to stop importing through you, as our profits on the
Cent Coinage will not cover the expenses of material,
freight, other parties who import for us say nothing
about advancing the price.

Respectfully,

Sir

Enclosed are \$100, for nicky cents to be forwarded to Aaron White, Webster Depot on the Norwich Worcester R. Road, Mass.

In the month of April last a neighbor of mine Mr Rufus Young under my instructions forwarded per Mail to your Office \$100 for new cents & has had no return therefor, as he says, from that time to the present. — I have inquired into the matter some & I am satisfied that the money was actually sent in a letter duly registered at Webster P. Office. — I have traced the letter to New York P. Office & the last intelligence I get of it, is in a letter from said N.Y. P. Office, stating that the May Bill accompanying the letter had been rec^d, but that the letter was missing & it was intimated that it probably ^{had} been overlooked & gone on to its destination — Now when you send my Receipt for the enclosed, I should be pleased to know whether any order for cents has been rec^d from Rufus Young — 2^d Whether any letter containing \$100, has been rec^d from Webster P. Office, so unintelligibly written that you could not ascertain where to send an answer 3^d Whether the Post-masters at Webster or New York, have written to you concerning said missing letter — I have advised a number of persons, mostly Traders, how to get cents, and I believe their orders have all been promptly answered excepting in this case of Mr Young.

Very respectfully Yours

Secretary of the Treasury,

Sir.

I beg leave to call your attention to my communication of the 4th inst. relative to the appointment of Essay Commissioners, and to request that the subject may receive your immediate consideration. The meeting of the Annual Essay Commission is fixed by law for two weeks from Monday next, and it is important that the gentlemen who may be designated by the President, as Special Commissioners, should be notified of their appointment at once, otherwise they may not have time to make their arrangements for leaving home.

At the instance of Prof Joseph Henry, I ~~cannot~~ suggest, in addition to the names mentioned in my letter of 4th inst., that of Prof J. H. Alexander, of Balt., for appointment as Assoc. Commissioner.

Philadelphia

Sir.

On the 31st ult. we advised you of the arrival of "U. S. Mint 1859" two cases, each containing 5000 99% Nickel, on board Steamer Persin from Liverpool, requesting you at the same time to obtain a free permit for these cases.

As we have not heard from you since, we now again beg to request you, to have a free permit issued, as the vessel is discharging already.

In case you should not be in immediate want of the Nickel, you will greatly oblige us by letting us have the disposal of the 2 cases.

Awaiting your reply, we remain
Sir,

most respectfully yours

The mistake occurs simply I think
from a confusion in regard to the different kind of
ounces of avoirdupois. He has weighed it avoirdupois
and we Troy. Our weight of the deposit is 320.70
ounce, which divided by 16 ^{ounces} 320.70 (20 lbs now if we reduce it to
avoirdupois ounces that is ^{00.7} multiply 320.70 ounces by ^{Troy ounce} 480 grains &
divide by ^{avoirdupois ounce} 437.5 grains it will just give the ounces of 22 Avoirdupois

Dear Sir

Haford the Works
Swansea. 9 Dec
1863.

I am much amused to
find that the Blunt & Miller
are so disagreeably placed in
regard to Nickel. I can
assure them that I have
done my utmost to increase
my supply & that that supply
of ore have alone prevented
my making double what
I have been able to make.
I have been disappointed
in not receiving the supplies

I calculated on: the element
of time is that which always
beats me: it is extremely
difficult to obtain increased
supplies of so rare a mineral
as nickel ore at a short notice.
One cargo containing 10 tons
of nickel was stranded:
a lot of ore containing 20 tons
of nickel which I have
actually paid for cannot
be obtained from the mine owing
to the want of ice & I have
for transport last winter but
I am now promised it

by 10m as also the cars
which had to be discharged.
a large car had I expected
to come in immediate
operation will not begin
till February. Two other
large sources are still
subject of negotiation which
seems however to be likely
to terminate favorably.
In this way I have been
prevented from increasing
as I expected to be able to
but I look forward to a
large increased production

in 1864 & my Aunt & Sister
shall have all I can give
them of it. Pray explain
the above to them & express
my regret at last that neither
my uncles are half equal to
all they could take & much
more if I could get
the mineral

Yours faithfully,

Dear Sir

I am favored with yours of yesterday's date. You will see by the enclosed note from Mr. Vivian, dated the 9th, inst. how he is situated in regard to ore. Just as he was prepared to increase his make of steel, his supplies of ore failed him. I have had very little for the past 3 months, but from the letter of Mr. Vivian's letter, I think I may look for one or two thousand lbs next month, & after that a regular supply.

That I have not been able to meet your wants, has vexed me a good deal, but it is no fault of mine.

Permit me, respectfully, to
call your attention to my former communications on
the subject and necessity of substituting bronze for
nickel in the composition of the cent.

It is not only very difficult to obtain a supply of
nickel, but almost impossible; and with the ex-
cessively high price, the cost of production will soon
exceed the value of the product.

I had the honor, a few weeks ago, to forward you
a bill prepared at your request, embracing not only
the change in metal, but authorizing the coinage
of a two cent piece &c. If approved by you, it is desirable
that Congress should be requested to take immediate
~~action upon it~~ - at least so much should be author-
ized the substitution of bronze for nickel in the
cent, which is of the first necessity, if the making of
that coin is to be continued. The demand for cents
is very great, and cannot be met under existing

Director of the Mint &c &c

Sir,

The undersigned, officers ^{of the U.S. Mint} ~~under your direction~~, beg leave to represent, that the salaries at this Institution were fixed by law nearly thirty years ago, and were then moderate in proportion to the large trust and responsibility; ^{and much below officers of corresponding grade in other branches of the civil service} since which time there have been established, subordinate departments of the Mint, in other cities, where the salaries for the same services are much larger. These facts, together with the recent advances of pay in some branches of government service, consequent upon the advance in cost of living, embolden us to ask for your ^{to procure the necessary legislation from Congress} influence with the Hon. Secretary of the Treasury, ~~for such~~ to obtain his recommendation of an advance, ^{of compensation} ~~in such proportion as he may think just and proper.~~ ^{Now}

(over)

Some of us wish to add, that we prefer
to ask this in case the two-cent bronze coin
is authorized; for then the increased amount
of work, and of profits on coinage, would, as we
think, obviate all objection.

Gentlemen,

Assays of Nickel

91 + 92 have been assayed with
satisfactory results. You may therefore,
send accepted duplicate Bill,
drawn on us for the amount.

Although believing

that your letter in which you referred
to an advance of price from 1.26
to 1.32 per lb. cannot be fairly
construed to include the mint. we
are willing under all the circumstances
to settle for the Nickel at \$1.32
in gold. If you should hereafter
again advance the price you
will please give us specific
notice thereof.

Respectfully Yours

A question has arisen as to the value of the taal of Shanghai: and in a case adjudicated in the Circuit Court of the U.S. for the S. dist. of New York, it was determined that its value is equal to a Spanish or American dollar.

Concerning the Mint
Value of the Chinese
"tael" of Shanghai,

Feb. 3rd/64 —

February 5th 4

Hon. S. P. Chase

Sec. of the Treasury

Sir

Your letter of the 8th inst.
in relation to the tael of Shanghai, has been recd.

Our official information in regard to Chinese
currency is not later than 1859, when we had letters
from U. S. Consuls at Foo Chow, Hong Kong and
Shanghai: but it is not likely that there has been
any change since, and so far as we can gather from
ordinary reports, there has not been.

The tael or tael (being, properly) is a weight and
a money of account; not a coin. It is however
represented by stamped bars of pure silver
(called sycee) and by a definite weight in Spanish
dollars. The weight is variously stated, 579 to
583½ troy grains, and besides this uncertainty, there
is also a fluctuation in the price of silver. But
we find a more exact correspondence, as to the
value of the tael of dollar silver at Shanghai, in the
statement of the Consul there, and in our calculations

based upon the present U. S. Mint value, $122\frac{1}{2}$ cents
(gold or silver) to the ounce troy, ^{than was to be expected.} The Consul says "
The silver in a tael equals in value one dollar
and forty eight cents"; and taking the weight at 580
grains, as we have done on former occasions, it
comes precisely to the same figure, or as near as may
be.

The determination in court that "its value is
equal to a Spanish or American dollar" may have
proceeded from the fact, that Spanish dollars, with
or without the Chinese chop, are used in payment.

Yours very Respectfully

The scarcity and high price

the coinage of cents, and I fear
will soon render a continuance of
the coinage impracticable. To meet
this difficulty, and for other substantial
reasons, I warmly recommend
a change of alloy. Should Congress
pass the necessary legislation on the
